PROJECT

Shifa Vaccination Portal

Live   **GitHub**

Group Project

Developed a Shifa Vaccination Portal for Covid-19 on which all the fundamental CRUD operations can be performed...

Login/Logout - Admin, User Registration, and log in before any operation

CRUD - All the fundamental CRUD operations can be performed and also done Authentication.

TechStack:-Java | SpringBoot | Hibrnate

Automated Student Registration System

GitHub 

Individual Project

Automated Student Registration System monitors the course in an organization, and helps system administrators monitor their infrastructure.

In an educational Institute, there are several courses running parallel every day. For every course, there are multiple batches so every detail should be in the database so that it will be easy to find any student.

TechStack:- Java | JDBC | MySQL

boat Lifestyle Clone

Live   **GitHub**
